

ATOM BOMB BODY JASMINE

CONTENT CREATOR & HOST

ABOUT ATOM

AtomBombBody started streaming in 2017 and went full time as a freelancer in 2018, she specializes in virtual reality gaming. Atom currently creates tutorials to teach other aspiring VR creators how to record and live-stream VR and creates silly Tiktoks. She also currently works at LIV (VR capture software) as a product marketing, but was the community manager before she got promoted.

Besides gaming, Atom has extensive hosting and interview experience. She is a crew member of F.Reality podcast, has interviewed developers and other content creators as a LIV partner, and has appeared on the Twitch front page doing interviews and hosting for the non profit Stack Up. She has also worked with a wide variety of game companies and developers to help preview, review, promote and market their games.

PERSONAL PROFILE

I focus on educating other VR creators - veterans and newbies alike. For everyone else I love showing them what they're missing when it comes to VR!
